

LEVARHT

BELL PEPPERS

ORIGIN

Our peppers are available in the main colours of red, yellow, orange and green. Each pepper colour has its own unique flavour. In the Netherlands our peppers are grown by our Van Nature growers under the brands VDN and Take-a-Pep. Following the market demand for Year round supply of a continues and guaranteed quality, we have our own greenhouses FreshMex in Mexico for the American and Canadian markets and Southern Paprika Ltd in New Zealand for the Japanese and Far East region. Together with our partners in Spain and Israel we can also offer the European market the demanded qualities year round.

We offer various packaging options for our peppers, including flowpack, individually sealed, bagged or in a net. And we are always looking for new packaging solutions together with our customers and growers. We would be delighted to discuss this with you. For more information please contact: bellpeppers@levarht.com.

BRINGING — — THE BEST TOGETHER

Connecting people all over the world is what drives us and our business. We want to bring people together to achieve our shared goal - to make our freshest and most delicious fruit and vegetables available to anyone, anywhere in the world, all year round.

Together with our partners we want to realize our shared ambitions. We want to conquer the challenges of fresh fruit and vegetables, find the opportunities in our challenging market and make it all happen.

Bringing the best is not something we can do alone ... we do it together!
