

LEVARHT

# CUCUMBER

## ORIGIN

The cucumber is characterized by its length, dark green colour, refreshing flavour and 'crunchy' bite. This fruit is related to the courgette and melon and is ideal for use in salads or as a healthy snack.

Cucumbers are planted 2 or 3 times during the growing season in order to guarantee high quality and the dark colouring.

Our cucumbers can be supplied shrink-wrapped or unwrapped. If you would like to find out what Levarht can offer you, please contact [cucumbers@levarht.nl](mailto:cucumbers@levarht.nl).
